

# Storyboard Sketch

CREATIVE  
BRIEF  
#

IDEA NAME

**Methodry**

*Sketch out your idea showing how a customer would move through this part of the experience – their movements, the info they input, their thoughts, and so on.*

*Each panel is one frame in the storyboard. It's kind of like a comic book that you're going to fill in.*

*The 6 frames of your storyboard show a progression: first this, then that, then that.*
